### Instructions

It's nearly Emoji Day and a catastrophe has occurred. All of the emojis have disappeared from everyone's mobile phones! Who would take all of the emojis just before Emoji Day? The culprit needs to be found and the emojis must be returned so that the celebrations can continue.

## Plural Possessive Apostrophe

The emoji factory is always trying to work out which emojis are the most popular and so the room is filled with sticky notes with hand written sentences about which groups prefer which emojis.

Tick the sentences that show the correct use of the **plural possessive apostrophe**.

If there is an odd number of ticks, the culprit is right-handed.

If there is an even number of ticks, the culprit is left-handed.

The fairies' favourite emoji is happy.

The people's favourite emoji is confused.

The childrens' favourite emoji is shocked.

The babies's favourite emoji is laughing.

The dogs' favourite emoji is angry.

The cats's favourite emoji is happy.

## Dodgy Dialogue

PC Barnes writes down what is said in an interview with one of the suspects, but he does not know how to use speech punctuation.

Add the inverted commas around what is said. The number of missing PAIRS of inverted commas will show the house number of the culprit.

Please sit down, said the Detective Chief Inspector politely. Now, tell me. Where were you when the emojis disappeared?

I was at home with my family, the suspect replied.

Do you have any witnesses who can confirm that? asked the Detective.

The suspect shuffled in his seat.

Urrr, yes. M...m...my wife will tell you that I was there all night, the suspect stammered.

And what were you doing when you were at home? continued the Detective.

We were watching our favourite TV show and then went to bed, said the suspect nervously.

There are \_\_\_\_ missing PAIRS of inverted commas so the emoji's house number is \_\_\_\_.
